

**ASSOCIATION OF
UNIVERSITY
RESEARCH
PARKS**

Thorough treatment of global technology centers would be incomplete without a directory of research and science parks to keep on hand. Therefore, Site Selection is pleased to present the current directory of the Tucson, Ariz.-based Association of University Research Parks (AURP), whose members play critical roles in bringing together academia, private-sector investors and local economic developers to turn science into industry and research into job creation. Site Selection values its collaboration with AURP (www.aurp.net). — Editor
