 Right-to-work state? **NO**

Did You Know?

- Investments in R&D facilities are eligible for a 9-percent corporate tax credit. Additional credits are available to encourage the creation and expansion of emerging technology businesses, including a three-year job creation credit of \$1,000 per employee.
- Empire State Development's Manufacturing Assistance Program provides grants of up to \$1 million for qualified manufacturers that invest in projects that significantly improve production, productivity and competitiveness.

Legislative Update

- Governor David A. Paterson in February announced the passage of a three-way bill negotiated with the Legislature to improve net metering, which encourages the development of renewable energy systems. Net metering allows electricity customers with qualified renewable energy systems to sell excess electricity back to their local utility. The bill eliminates the peak load limitation on the size of non-residential solar and wind systems that are eligible to participate in the net metering program.

Selected Corporate Facility Projects 2010

Company	City	County	Type	N/E	Product	Investment (in millions)	Employment
General Motors	Tonawanda	Erie	MF	N	Automobile Engines	\$425
