

“New York is leading the charge for the clean energy revolution ... The national Offshore Wind Training Center will enhance our efforts to prepare our workforce for the green jobs of the future, support the physical infrastructure needed for these clean energy projects, and solidify New York’s role as a global leader in this powerhouse industry.”

— Gov. Kathy Hochul, October 2022, announcing the land transfer to build a National Offshore Wind Training Center to the state, with a goal to bring 9,000 megawatts of offshore wind by 2035.

LEGISLATIVE UPDATE:

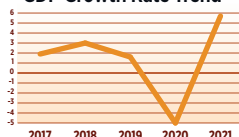

S.8741A/A.9649A, the New York Textile Act supports farmers and the state’s textile industry by connecting both industries to use local grown plant and animal fibers to manufacture, develop sustainable innovation and create marketing opportunity. The act strengthens economic development through R&D, promoting New York textile manufacturing and expanding plant and animal fiber production.

Greater Rochester Chamber of Commerce President and CEO Bob Duffy released the following statement on the FY2023 NYS Budget: “We appreciate Governor Hochul and the Legislature’s commitment in the FY2023 budget to workforce development, funding for childcare, equitable broadband expansion, and investment in economic development initiatives like the digital gaming tax credit, Regional Economic Development Councils, and shovel-ready sites. Industries that were hard hit by the pandemic like restaurants will see relief through policies including alcohol-to-go, and others by way of much-needed tax relief.”

Made for Manufacturing!

“We found an excellent site for our new fabrication and distribution facility, with the help of Operation Oswego County. We are now in the right location to attract the talent we need to successfully design, manufacture and distribute our products.”

— Tim McKernan, Facilities Manager, EJ, global leader in infrastructure access solutions

- Opportunity to participate in regional investment of \$100B in semiconductor industry over next 20 years
- Workforce development programs for finding and training labor
- Modern infrastructure network for industrial users
- Multiple industrial sites and parks throughout the county ideal for development
- Multimodal transportation options via interstate, rail, air and water
- Customized incentives and financing options for manufacturing
